From the Owner

Whenever you are looking to move, RT Relocation your Connecticut based moving and storage specialists, want to help you make, 'the right move.' Located at 10 Diana Court in Cheshire, our central location provides easy access to all points in Connecticut, and our climate controlled warehouse facility provides a safe and secure place for all your storage needs.

In my more than thirty years in the moving business, working as a helper, a driver, dispatcher, and finally a business owner, I've had the good fortune to work closely with some of the best and most successful people in the industry. Those relationships have been invaluable to me, and I've always strived to learn everything I can to be better at what I do. It's important to me, and its an attitude that I instill in my crews, that we always do the right thing, every move, every time. My crews don't cut corners and they don't take shortcuts, because they understand that they're not just moving a sofa, they're moving your sofa. They're moving the dining room table where your family got together for Thanksgiving dinner. When you entrust RT Relocation with handling your move, we do everything we can to ensure that we leave everything in your new home exactly where you want it and in the same condition it was in.

Our company has been providing the highest quality of service to corporate customers since 2010. We've succeeded in delivering the kind of expert service America's top executives demand, and we are thrilled to bring that same quality of service to local Connecticut residents.

We have eight drivers, four master packers, and twenty-five well trained movers. Our six 26' straight trucks, two tractor trailers, and two sprinter vans are all equipped with the tools needed to do your move right. Whether it's quilted moving blankets, hand trucks, or piano boards I believe in providing my crews with the best tools to do the job right, every time!

Our people are industry veterans, and all of our drivers have more than ten years experience in the moving industry. Let our team put that experience and expertise to work for you. From the first phone call until the last box comes off the truck, your satisfaction is our top concern. As the company owner I feel it's important to be involved with the day to day operations and to make sure every customer has, 'the right move,' if at any time, day or night you feel that your move isn't going right, call me and I'll make sure you get, 'the right move' that you deserve!

-Robert J. Anderson

Meet Your Drivers

Tom has been on a moving truck since the age of six, when his father brought him on the road during the summer. During his youth he worked part time as a helper in school, before eventually joining the army.

As soon as Tom's time in the service was done, he went and got his class A license and got back into the family business.

Whether it's a grand piano, a grandfather clock, or a full machine shop, Tom knows how to move it!

Ed is our local move specialist, and has been a mover for more than fifteen years now.

Whether you're a young family moving into a new home, or a senior moving into assisted living, Ed treats every customer with the utmost care.

If you're stressed about moving, count on Ed to get you through it.

Ricky is our long distance move specialist, and has been a mover for over twenty years.

He wants this to be your favorite move, whether it's your first or your fifth!

Whether you're going to Pittsburgh, PA or Orlando, FL, you count on Ricky to get you there on time, every time.

Protecting Your Residence

At RT Relocation, every move begins by thoroughly preparing your home. While we pad every piece of furniture, padding the home itself provides two layers of protection and ensures that we leave your home exactly as we found it.

Door frames, railings, and bannisters are all padded with moving blankets, while tight stairwells are protected with a layer of cardboard. Floor runners are laid down in all high traffic areas to avoid wear and tear, and cardboard can be used to provide cushion for soft flooring. Finally our signature RT Relocation door mats keep dirt out, and make your post move cleaning an easy process.

Packing Services

At RT Relocation, we offer full service packing, unpacking, as well as custom wood crating for high value or unusually shaped pieces.

Each box is lined with a base layer of paper for padding, and each piece is individually wrapped for maximum protection.

From sturdy double walled boxes for glassware like the one Gloria is packing here, to foam lined cartons to protect flat screen TVs, our experienced crews have the tools and the knowledge to handle everything in your home. We even have custom fitted boxes with cushioned inserts for pictures, and heavy duty cartons for your mattresses.

Furniture Wrapping

During your move, every piece of furniture will be wrapped on all six sides to ensure it arrives safely at your destination. Wooden furniture is wrapped with padded moving blankets held in place by industrial rubber bands. These quilted pads keep pieces of furniture from scratching against each other in the truck, in addition to keeping everything clean.

Sofas and upholstered furniture are wrapped with either paper pads or padded moving blankets depending on the material, and then covered in a layer of shrink wrap to keep out dirt and dust. Mattresses go in a sturdy corrugated carton to prevent rips, tears, scuffs, and stains.

Customer Feedback

Robert V.
New Fairfield, CT

RT Relocation did an impeccable job with our recent residential relocation from New Fairfield to Bethel, CT. Beginning with their thorough professional estimate to our organized & efficient moving team of Tom, Peter, Nick & Anibal, the RT team took all the stress out of the move from our precious home of 23 years. All of our expectations were certainly exceeded with these top-notch moving professionals. Highly recommend RT Relocation & wouldn't hesitate to call them if we ever move again !!!

Your Moving Checklist

A MONTH BEFORE THE MOVE

- ☐ Reserve your crew for your earliest preferred move date. Its easier to delay a move than to move up the date!
- ☐ If you're handling your own packing, you can purchase anything you might need at our warehouse. You can also find free used supplies on social media sites.
- ☐ Start to thin out closets, the garage, and attic. Double check that older boxes are still servicable, and repack them as needed.
- ☐ Plan a garage sale or donate your unwanted things to charity.
- ☐ Update your address with your local post office or change it online.
- ☐ Notify insurance companies and your financial institutions.

TWO WEEKS BEFORE THE MOVE

- ☐ If you decide to pack yourself, label all your boxes as you pack. Write the destination room on the top and sides of each moving box to ensure it gets to the right place in your new home. Feel free to visit our warehouse and shop for extra packing supplies, or for a small additional fee we can even deliver them to you!
- ☐ Schedule disconnects for utilities such as cable, gas, electric, and water, and schedule connections for your new residence.

THE WEEK OF THE MOVE

- ☐ Finish packing and be sure all items are boxed and ready to go prior to the movers' arrival. Give us a call if you might need us to help with the rest of your packing!
- ☐ Think about where your kids and pets will be during the time of the move, and if necessary, plan for them to go to a relative or friend's house during that time.
- ☐ Ensure you have transportation to your new home for yourself, family, and pets.

DAY OF THE MOVE

- ☐ Create a safe path for the movers to navigate by clearing your driveway of objects, snow, or ice.
- ☐ Pack your suitcase with any essential personal items, identification documents, cash, and jewelry.
- ☐ Be sure that you or a trusted representative are present when the movers arrive so you can walk us through the home and indicate what you need moved or anything in particular we should be aware of.
- ☐ Once all of your belongings are loaded onto the moving truck, be sure to do one final walkthrough with the crew to be sure nothing was missed. Lock all windows and outside doors, in addition to checking all lights and your thermostat are off before heading to your new home.
